alazartegene@gmail.com alazartegene2@gmail.com

Quality-oriented university graduate with a **Bachelor's degree in Electrical and Computer Engineering** from Jimma university, with four-month of internship and best computer and programming skills, aiming to leverage academic experience along with being enthusiastic and eager to contribute to success through hard work.

Employment

01/2020 to 06/2021

Assistant Manager

HealEye Medium Ophthalmic Clinic, Jimma

I played a key role in transforming the clinic to a high level of customer service and care system. Also, provide a new way of patient data management system.

07/2021 to Present

Program Officer

Empowering Next Generation, Addis Ababa

Some of my duties include handling program tasks such as program design, formalizing commitments, monitoring and evaluation such as participating reviews, field visits, and timely reporting efficiently and quickly.

Education

BSc in Electrical and Computer Engineering Technology - 2021
Jimma University, Jimma

Internship

Junior Electrical Engineer

Ethiopian Electric Utility, Addis Ababa

- I have been placed to work as Junior Electrical Engineer and lead a team of students who are on an internship at the office I have been working.
- We have developed a Distribution Transformer Condition Monitoring and Evaluation system to

**JIMMA UNIVERSITY
INSTITUTE OF TECHNOLOGY
FACULTY OF ELECTRICAL AND COMPUTER ENGINEERING**

LETTER OF RECOMMENDATION

TO WHOM IT MAY CONCERN

I have known **Mr. Alazar Tegene Tadesse** since the tenth month of 2016. It is my pleasure to write a recommendation letter for him. As an instructor in the following subject: fundamentals of Electrical Engineering, Electrical lab one and also as guider of CBE coordinator in the Jimma University, Institute of Technology, Faculty of electrical and computer engineering I have observed and noticed his ability and intelligence in his chosen field.

I have been in Jimma University (JIT) as a lecturer in the Institute of Technology for almost 7 years and have been with him as his instructor in our faculty. I have seen his dedication to work and have noticed his improvement through academic and technical aspect. In fact; **Alazar** belongs to one of the best students under Faculty of Electrical and Computer Engineering.

I am very much confident that **Alazar** can perform accurately the task given to him in every aspect of electrical and computer engineering. I am also certain that he can do well in any aspect as far as engineering is concerned since he is devoted to giving his time and specialized talent in every endeavor.

If you want to know further about him do not hesitate to contact me with the information below.

Respectfully yours,

Mr. Birhanu Belete

Faculty dean and Lecturer of, Electrical & Computer Engineering Faculty

Jimma Institute of Technology

Email Address: birhanu.belete@ju.edu.et

Mob. No. +251937186332

Letter of Recommendation

I am writing this recommendation letter to the response of **Mr. Alazar Tegene Tadesse** Personal request to support and endorse him for his desire of admission in to further higher education and other chances he is vowing to apply for. I am here approving his endorsement in my view for I have known him for the whole five academic years he stayed in undergraduate Electrical and Computer engineering program.

I have handled a power system courses such as Introduction to Power System, Power System Analysis and Energy Conversion. Where, I realized that he have what it makes to be an engineer. I understand why **Mr. Alazar Tegene Tadesse** especially needs my personal endorsement, as I know that it is me who can better understand his academic performance and as such better comment on him personal quantities than anyone else, considering the length of time and frequency of my involvement in his academic life.

While teaching at Jimma Institute of Technology, Jimma University for about **10 years**, it is him who suppressed my expectation in academic and personal qualities (her continuous effort to learn new thing, strong team spirit and magnificent leadership skill not only on academic, but also has good problem solving skill and etc. this are few to least) from other student through I have been knowing.

Added to this, he has been working on his final year project-“ **Integreated Solar and Biogas Electricity production for small Scale Tomato Processing**”, under my guidance and as his project adviser, I have observed and monitored him at close quarters. He is a person with positive attitude towards life and enjoys his work. I find him to be a dedicated and industrious student and am confident that he will excel in her higher studies and any related professional job.

Mr. Alazar Tegene Tadesse is someone who can internalize and practice his talent and the inputs/comments/advice I had given him during the whole stay at the institutions as his academic instructor and academic advisor.
